This class serves as an introduction or refresher in Bible teachings and Lutheran practice. It serves as a membership course for those interested and also to inform non-member school families what we believe, teach and confess in the classroom.

Owning the Mission

January 17-February 21

In the first twelve chapters of the book of the Acts of the Apostles, God gives us a record of the growth of the early Christian churches. This history serves as a significant model as we carry out our mission as a part of God’s kingdom. The open forum(s) in the week(s) following the Bible study will guide us in formulating Mission and Vision statements for our church’s ministry. All of Trinity’s members are encouraged to attend for the sake of congregation-wide “ownership” of our mission and vision.

Friendship Witnessing

February 28-March 21

Sharing your faith or inviting someone to church can be a scary thing. This Bible class will help us learn how to “open the door” to get the conversation started and what things to say after that. There are many helps and resources to help even the most timid Christians have the courage to be witnesses for Christ.

Fireproof

April 18-May 23

Based on the movie of the same title that came out last Summer, this is a class that has direct application for married couples, while still offering growth opportunities for singles also. The class will begin with a showing of the movie followed by five more lessons, incorporating Bible study, discussion, and video clips from the movie.
